DEFINITIONS: All terms and definitions are consistent with the same or similar terms defined in 6NYCRR Part 215 and Article 9 Environmental Conservation Law (ECL).

1. Brush is defined as on-site downed tree limbs and branches less than six inches in diameter and eight feet in length.
2. Other debris is defined as untreated wood used for ceremonial or celebratory fires.
3. Agricultural Waste is defined as any waste from naturally grown products such as vines, trees and branches from orchards, leaves and stubble. In addition, any fully organic waste either grown or generated on the premises, including but not limited to paper feed bags, wood shavings used for livestock bedding, baling twine, and other non-plastic materials. Agricultural waste does not include pesticide containers, fertilizer bags, large plastic storage bags (including bags commonly known as "Ag bags"), offal, tires, plastic feed bags, and other plastic or synthetic materials.

CONDITIONS:

4. Where local ordinances or orders restrict open fires, the permit holder shall also obtain permission from local fire department or other local authority having jurisdiction.
5. Tires, fuel oil or similar materials which cause visible emissions shall not be used to ignite or sustain an open fire.
6. Tree trunks, stumps and roots shall not be burned.
7. Burning is permitted only when the prevailing winds are away from populated areas. Fires shall not be started during strong winds.
8. The permit holder shall not conduct open burning during any stage of an air pollution episode or when a period of high fire danger is announced by the Commissioner of the Department of Environmental Conservation for the location of planned burn.
9. The permit holder shall notify the local fire department or county official prior to burning and shall show this permit to any fire or law enforcement official who requests to see it.
10. Materials to be ignited shall be isolated to prevent spreading and sufficient help must be present at all times to control fires.
11. No fire shall be unattended at any time or left unattended until entirely extinguished.
12. The permit holder shall be liable for damage to trees or other property resulting from fires ignited by him/her.
13. Should it become necessary to extinguish any fire, the permit holder shall be liable for all costs of suppression.
14. This permit is non-transferrable and may be revoked if the permit holder fails to comply with permit conditions.
15. Burning shall not cause contravention of any applicable ambient air quality standard or cause air pollution.
16. This permit is valid only where the permit holder owns the site of open fire or where he/she has secured permission from the site owner. This permit authorizes no trespass on private property.
17. This permit must be at the burning site when burning is being conducted.
18. All burning must be in compliance with 6NYCRR Part 215. Failure to comply with state open burning laws may result in a fine up to \$15,000.
